**Would your students like to take part in a
free interactive Software Development workshop?**

XP2016 in association with Digital World are offering school students in Scotland the opportunity to join industry professionals at the 17th International Conference on Agile Software Development and take part in an exciting hands on workshop.

Students will:
·   Take part in 90 minute interactive workshop
·   Get hands on with the BBC micro:bit
·   Learn about agile software development in a fast and fun way
·   Create software as part of a team
·   Discover more about careers in software development

Teachers will:
·   Gain insight into the digital industry
·   Gain understanding of nontechnical aspects of software development
·   Learn about agile methods and learning resources

These skills are key to many STEM careers. The event is suitable for students interested in:
·   Information Technology
·   Computer Science
·   Art & Design
·   Media Studies
·   Business
·   Physics, Biology, Chemistry, Mathematics

Workshops are open to groups of 10 or 20 students in P5 – P7 and S1 – S3.

Places are limited (to 6-12 school groups) and will be drawn from a pot. **You must register for this event. Deadline for registration is 22nd April.** Places confirmed post-draw.

REGISTER your school here: Schools @ XP2016 Registration Link

Please note travel contribution and snacks will be provided.
